SEYMOUR walks to the door, leaving HARDING trembling by the Reception Desk.

125C EXT. PENTHOUSE ROOF GARDEN, DAY

TALBOT-LOWE watches as a Minion restocks his pool with trout.

TALBOT-LOWE

We're frankly not prepared to tolerate this kind of situation. I thought I'd made that abundantly clear from the start. You're a man of... flexible integrity. Surely you must see that it puts us in an untenable position. Perhaps you could bring a little pressure to bear. Because if it continues the way it's going, I'm afraid the Board will have to somewhat revise their thinking on any future investments. You follow me?

A PAUSE.

TALBOT-LOWE

PULL BACK to reveal DEVLIN.
